Letter of Invitation

It is our great pleasure to invite you to the **2026 KSP Global Innovation Conference**, which will be held on Monday, September 7, 2026, at Grand Walkerhill Seoul.

Since 2004, the Ministry of Finance and Economy of the Republic of Korea has implemented the Knowledge Sharing Program (KSP), drawing on Korea's economic and social development experience and policy expertise to support the sustainable development of partner countries.

KSP has evolved beyond the sharing of policy experience into a **global policy cooperation platform** through which Korea and its partners jointly create new policy knowledge and explore solutions to emerging development challenges.

This year's conference, under the theme "**KSP: Driving AI and Digital Transformation for Inclusive Growth**," will examine how policies, institutions, and international cooperation can help translate advances in AI and digital technologies into sustainable and inclusive growth.

The conference will be held in a hybrid format, enabling participants from Korea and around the world to share KSP's achievements and discuss future directions for policy cooperation.

We sincerely invite you to join us on this meaningful occasion as we explore new directions for cooperation toward renewed growth and shared prosperity in a rapidly changing global environment.

Thank you.

Yun Cheol KooDeputy Prime Minister &
Ministry of Finance and Economy, Republic of Korea Ministry of Finance
and Economy
